Profile

Results-oriented Frontend and Full-Stack Developer with strong expertise in Next.js and modern JavaScript ecosystems. Experienced in building scalable, high-performance web applications using server-side rendering (SSR), RESTful APIs, and secure authentication. Adept at writing clean, maintainable code and collaborating in cross-functional development teams.

Education

- **Bachelor of Science in Software Engineering**
Superior University, Lahore *Oct 2024 – Feb 2028 (In Progress)*
 - Relevant Coursework: Advanced Web Development, Database Systems, Algorithms, Data Structures

Technical Skills

- **Frontend:** Next.js (App Router), React.js, JavaScript (ES6+), Tailwind CSS, Chakra UI, Shadcn UI
- **Backend:** Node.js, Express.js, MongoDB, RESTful APIs, JWT Authentication
- **Tools & Platforms:** Git, CI/CD, Vercel, Netlify, Render, Postman

Experience

- **Next.js Developer — International Client Project** **CricksLab, Lahore**
May 2024 – Oct 2024
 - Developed SEO-optimized server-side rendered (SSR) features using Next.js, improving performance and search visibility.
 - Integrated RESTful APIs and implemented secure authentication flows in collaboration with backend engineers.
 - Optimized frontend performance through efficient state management and component reusability.

Projects

- **Personal Portfolio Website** — *Next.js, Chakra UI* ([Live](#))
 - Designed and deployed a responsive portfolio showcasing projects, technical skills, and professional experience.
- **WebChat Application** — *Next.js, Node.js, MongoDB, Socket.io, JWT*
 - Built a real-time messaging system supporting private and group chat using WebSockets.

- Implemented JWT-based authentication and secure API communication.

- **DigiVerse — Digital Marketplace Platform** — *Next.js 15, Tailwind CSS, Stripe* ([GitHub](#))

Technical Highlights

- Server-Side Rendering (SSR), Static Site Generation (SSG), Incremental Static Regeneration (ISR)
- Secure authentication, authorization, and session management using JWT
- Real-time application development with Socket.io
- CI/CD pipelines and cloud deployments on Vercel, Netlify, and Render
